

Many of the students have been discussing ideas so here is the list. I realise that some are unrealistic but I thought you would be interested to see them any way!

Fish pond\ nature area (but don't know where!)

BBQ pitches on the beach

Cycling path

New school building !

Café in King George's field

Goal nets in King George's field

More trees planted in parks and by roads

A marine type park (like a sea life centre)

Greater student discounts on the buses\ transport

More facilities in parks, basket ball courts, tennis courts, picnic areas, seating areas.

Hopefully we can arrange for you to return in the summer to a council meeting.

Thank you, hope this is ok.

Kathryn Goodall
